

**Dr. Mohammad H. Salehyar** graduated with honors from the Faculty of Dentistry, at Shiraz University of Medical Sciences in Iran in 1991. He worked more than ten years in a variety of rural and urban dental clinics.

In addition, he worked as an instructor and a researcher in the Faculty of Dentistry, at Kerman University of Medical Sciences since 1992. As a devoted General Practitioner, Mohammad has extensive experience in dental procedures as well as oral health research. He moved to Canada in June 2003 and passed the Eligibility Examination for pursuing his dental proficiency in Canada.

Since 2003, Mohammad has experienced many different jobs. He has done traineeship with EDI (Edmonton Diagnostic Imaging Inc.) in 3D digital radiography and TMD/Orofacial Pain clinic at University of Alberta.

Currently, Mohammad is working with CIETcanada (Community Information and Epidemiological Technologies) in ACRA (Aboriginal Community Resilience to AIDS and related diseases) project. His professional goal is to become a researcher in public health (Oral Health) along with clinical practice in Canada.

Mohammad is one of the founders of EIMSNS.
